## Layout Map

It is best to wash all your fabrics first and make sure your panel is the correct size of 35.5" X 41.5" and square. Please note: If using Spoonflower panels they aren't square so double check. If there is shrinkage and you are short, you can always add the shrinkage amount to the next borders "D" and "G".

## In the Rough Cut 1

When using Spoonflower fabrics always measure your panels and square them off so they are 41.5 " by 35.5 ". If you are short add that short measurement to your next border which would be blocks "D" and "G".
